FAIRFAX, Va.--(BUSINESS WIRE)--Feb. 29, 2012-- ICF International, Inc., (NASDAQ:ICFI), a leading provider of professional services and technology solutions to government and commercial clients, reported results for the fourth quarter and year ended December 31, 2011.

Fourth Quarter Results and Highlights

Total revenue for the fourth quarter was \$213.9 million, an increase of 10.9 percent over total revenue of \$192.9 million reported in the 2010 fourth quarter. Organic revenue 1 growth was 10.4 percent.

Operating income was \$13.9 million, up 19 percent from the \$11.6 million of last year's fourth quarter. This year's fourth quarter operating income included acquisition-related expenses of \$1.3 million. Net income was \$8.8 million, a 23.5 percent increase over the \$7.2 million reported for last year's fourth quarter. Earnings per diluted share were \$0.44 compared to \$0.36 in the fourth quarter of 2010. In this year's fourth quarter the Company's effective tax rate was 34.0 percent, slightly below the 34.2 percent rate effective for the comparable period last year. For the 2011 fourth quarter, the fully diluted weighted average number of shares outstanding was 20.0 million compared to 19.8 million in the 2010 fourth quarter.

Commenting on the results, ICF International Chairman and Chief Executive Officer Sudhakar Kesavan said, "Our fourth quarter performance demonstrated the significant operating leverage that we have been able to achieve through combining a favorable business mix with efficient execution. Revenue growth was again led by our U.S. commercial business, which increased 59 percent year-on-year to account for 22 percent of total fourth quarter revenues. In our public sector, state and local revenues increased 7.2 percent, driven by growth in infrastructure management work, and our federal business increased 2.1 percent, reflecting greater demand for our health-related IT services."

Recent Corporate Developments

- Today ICF completed the acquisition of GHK Holdings Limited (GHK), a London-headquartered multi-disciplinary consultancy serving government and commercial clients. GHK had revenues of approximately \$30 million for full year 2011.
- Effective December 31, 2011, ICF completed the acquisition of Ironworks, a leading interactive web development firm serving commercial and government clients. For full-year 2011, Ironworks had revenues of approximately \$58 million.

"Ironworks increases the depth and breadth of ICF's implementation services in our key markets, builds our capabilities in the fast-growing interactive digital services arena, and brings an attractive balance of commercial and government clients."

"GHK adds significant scale to our international business, particularly in the high-growth Asian markets; a professional staff with deep domain expertise knowledge in our key markets; and a platform through which to replicate ICF's U.S. track record in Europe and Asia."

[&]quot;These acquisitions represent complementary elements of our strategic growth plan," Mr. Kesavan said.

Backlog and New Business Awards

Backlog was \$1.7 billion at the end of the fourth quarter. Funded backlog was \$730 million or 44 percent of the total.

The total value of contracts awarded in the 2011 fourth quarter was \$163 million.

Key contracts won in the fourth quarter included:

- Education: A new contract valued at \$32.8 million with the U.S. Department of Education, Institute of Education Services. Under this contract, ICF will operate the Regional Education Library (REL) Mid-Atlantic. In addition, ICF was named to provide coordination support for all 10 REL laboratories throughout the United States.
- Energy Efficiency: A new contract valued at \$12 million with PEPCO Holdings. Under this contract, ICF will promote increased energy efficiency in the residential consumer market and will deliver programs to educate homeowners and home service providers about the benefits of achieving higher levels of energy efficiency.
- Commercial Sector: In addition to the energy efficiency win already noted, ICF was awarded nearly 200 additional domestic and international commercial projects in the areas of energy efficiency, infrastructure environmental management, regulatory assessment for utilities, fuels and power markets assessment, and airline and airport planning.

Summary and Outlook

"This was another year of strong performance for ICF International. We achieved year-over-year growth in operating income and earnings per diluted share of 26 percent and 27 percent, respectively, on a revenue increase of 10 percent. We had record sales of \$1.2 billion, up 43 percent over 2010 levels, and our strong financial position provided the resources for us to continue to invest in organic growth and in strategic acquisitions."

"We expect this positive momentum to continue in 2012. Funded backlog levels at 2011 year-end and the addition of Ironworks and GHK provide good visibility, enabling us to reaffirm our full-year 2012 guidance of revenues in the range of \$1.0 billion to \$1.04 billion, up over 21 percent at the midpoint compared to 2011 levels. EBITDA margin is expected to range from 9.5 percent to 10.5 percent, which in U.S. dollars amounts to \$102 million at the midpoint, or year-on-year growth of 29 percent. We are guiding to a range of earnings per diluted share of \$2.05 to \$2.15 for the year, up 19.7 percent at the midpoint, based on approximately 20.2 million weighted average number of shares outstanding and an effective tax rate of 40 percent," Mr. Kesavan noted.

"For the 2012 first quarter, we expect revenues to range from \$227 million to \$233 million, and earnings per diluted share to be in the range of \$0.43 to \$0.47."
